Character Block

Find answers — for all in search of well-being

Wood is our passion. It is a tradition with us. As well as perfection.

As **parquet pioneers**, we are constantly looking for answers to all questions about flooring. On the basis of our knowledge and many years of experience, we are constantly setting new standards and developing innovative natural resources with which we are more than just one step ahead of others.

Our pioneering achievements include Silent Intelligence, Strip Appearance, square edged solid parquet with lacquered surface finish, Weitzer Parkett Multi and much more.

We look forward to laying the optimal foundation for your individual needs at your feet:

Weitzer Character Block

The feel-good collection!

The real wood floor with a 3-strip appearance always makes you feel good. In both large and small spaces.

What is Character Block?

Diverse in detail, pleasantly harmonious in the overall area. The real wood floor with a 3-strip appearance can do both. The parquet visually corresponds to three rows of smaller blocks, which give the floor a lively and dynamic character - well packaged in a plank shape. The perfect floor for an elegant appearance in large and small rooms. The 3-strip variant also allows the floor to be laid more quickly than laying the blocks individually. Placed diagonally, the character block makes for a particularly unusual design.

The Weitzer character block is available both as Maintenance-Free and Healthy Parquet: Just the way you want it.

Listen to your gut feeling and see for yourself!

Companion through a healthy life

Harmony or variety: The Weitzer character block offers you both. Experience the unique look that transforms the room into a feel-good place.

Highly recommended. Wood creates warmth and thus gives rooms coziness. Independent studies show that the surface temperature of parquet compared to laminate is up to at 0.8 °C and compared to tiles. It even feels up to 2.2 °C higher. This also saves heating costs - and that also ensures relaxation.

Diversity from the forest

Natural selection: Best of colourful. Assortment connoisseurs have undoubtedly already noticed: Some colours did not make it into the selection this year. It is simply not easy to qualify as a “top model” for Weitzer Parkett. In doing so, we are once again living up to our role as trendsetters – and hopefully your taste too.

Do we treat our wood well? Of course!

Our floors are constant companions through life. That is why we only use the best sunflower oil, which penetrates deep into the wood and keeps it supple. Linseed oil and natural wax give the surface smoothness and strengthen it against external influences. Also fuming and steaming must be included in the careful “beauty treatment”.

Why sustainable? Because we still have a lot of plans.

Weitzer thinks ahead. As experienced wood pioneers, we always have one thing in mind: The future. That is why it is a special concern for us to take responsibility for nature and the next generations.

No sooner said than done: We are pioneers not only in wood but also in environmental protection – and contribute to a positive life cycle assessment with our entire value chain. Our motto: Acting instead of just talking.

True pioneers make their mark

Our products proudly bear essential environmental certification marks – such as the "Blue Angel", the FSC®, PEFC, Real Wood, GreenGuard or TÜV ProfiCert seal. This is more than just a sign that we are taking responsibility for the environment and the next generations.

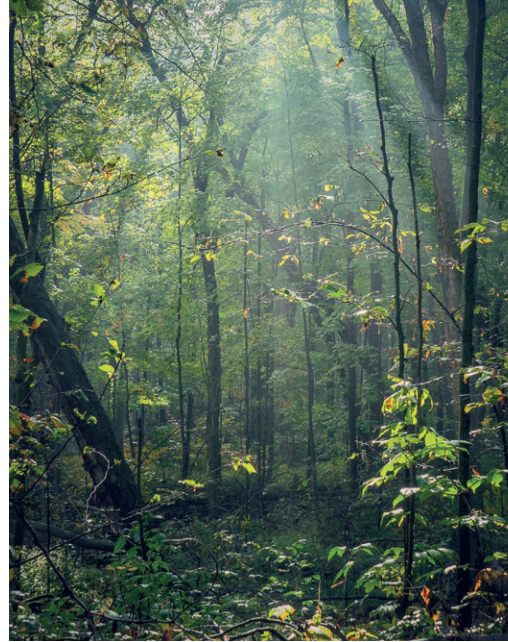

* Product certification on request.

Regional instead of global

We do not use tropical timber or long transport routes. Instead, we rely on regional timber, most of which comes from a maximum of 250 km away.

In addition, we produce locally and thus make an active contribution to climate protection.

Sustainable in an exemplary way

We focus on the responsible use of resources and source our timber exclusively from sustainable forestry. Wood is a durable, easily recyclable, renewable raw material that also binds CO₂. It doesn't get any more sustainable than this!

Recycling instead of throwing away

With timber parts that do not make it into our parquet, we supply not only Weitzer Parkett but also over 50% of the town of Weiz with renewable energy with our in-house biomass cogeneration plant.
