

Strikingly beautiful!

Ash Collection

Find answers — for all in search of well-being

Wood is our passion. It is a tradition with us. As well as perfection.

As **parquet pioneers**, we are constantly looking for answers to all questions about flooring. On the basis of our knowledge and many years of experience, we are constantly setting new standards and developing innovative natural resources with which we are more than just one step ahead of others.

Our pioneering achievements include Silent Intelligence, Strip Appearance, square edged solid parquet with lacquered surface finish, Weitzer Parkett Multi and much more.

We look forward to laying the optimal foundation for your individual needs at your feet:

Weitzer Collection Ash

Sensational!

It is a real highlight when it comes to design. However, its strikingly structured wood with the pronounced annual rings not only ensures a sensational look: The wood is also tougher and stronger than that of many other trees. Ideal for giving even small or dark rooms an optical size.

What is the Ash Collection?

Are you looking for a parquet floor with a sensational look that is also functional? Our intelligent solution: The Weitzer Ash Collection is also available in the Maintenance-Free and Healthy function.

In addition, the floor is free of plasticizers by dispensing with plastic elements.

Take a look at our Ash Collection! We will be happy to help you choose.

Companion through a healthy life

A real feast for the eyes! Convince yourself of the strikingly beautiful look of the Ash Collection.

Highly recommended. Wood creates warmth and thus gives rooms coziness. Independent studies show that the surface temperature of parquet compared to laminate is up to at 0.8 °C and compared to tiles. It even feels up to 2.2 °C higher. This also saves heating costs - and that also ensures relaxation.

EXCITING DESIGN!

The Ash Collection

With the Ash, Weitzer Parkett has an alternative to Oak in its range that is impressive. The wood has a similar hardness, the striking annual rings enliven the surface and give the room a bright and wide look.

What would you like it to be: lively or lively colourful?

Each floor tells its own story, because each part of a tree brings its own character. Enjoy the freedom of the design possibilities that arise and give your four walls a maximum of individuality and personality.

The additional treatment strengthens or tames the wood structure of your floor and gives it its unique character: Whether bevelled or brushed – the choice is yours!

LIVELY / LIVELY COLOURFUL

Colourful variety

Large branch content, balanced colour image: The lively type of parquet brings a harmonious, colourful look to the room.

Bevelled

Emphasizes the plank shape, gives depth and presence.

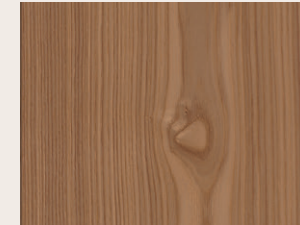

Brushed

Highlights the natural structure of wood fiber.

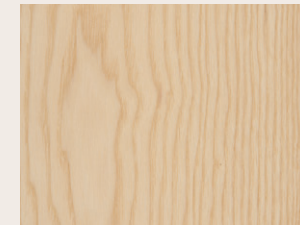

Diversity from the forest

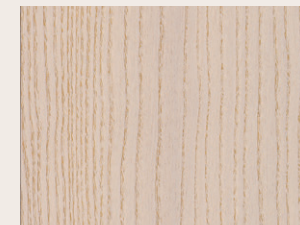

Natural selection: Best of colourful. Assortment connoisseurs have undoubtedly already noticed: Some colours did not make it into the selection this year. It is not easy to qualify as a "top model" for Weitzer Parkett: Only the best and most popular woods can convince us. But the premiere of an almost forgotten natural beauty from Austria's forests brings variety into your four walls: The colour amber meets the Ash for the first time. A type of wood that has earned a comeback and proves: It doesn't always have to be Oak. Once again, we are living up to our role as a trendsetter – and hopefully also to your taste.

Do we treat our wood well? Of course!

Our floors are constant companions through life. Therefore, we use only the best sunflower oil, which penetrates deep into the wood and keeps it supple. Linseed oil and natural wax give the surface smoothness and strengthen it against external influences. Also fuming and steaming must be included in the careful "beauty treatment".

Where does perfect design lead to? All the way to the top!

We believe: The aesthetics of a room should not end at the base of the stairs. That is why we manufacture the matching wooden staircase for every parquet – harmoniously matched to the parquet in terms of format, species, colour and surface. For smooth transitions between floor and staircase with absolute colour uniformity. Choose the dimensionally accurate variant of the step design that is perfect for you.

Your benefits at a glance:

Why sustainable? Because we still have a lot of plans.

Weitzer thinks ahead. As experienced wood pioneers, we always have one thing in mind: The future. That is why it is a special concern for us to take responsibility for nature and the next generations.

No sooner said than done: We are pioneers not only in wood but also in environmental protection – and contribute to a positive life cycle assessment with our entire value chain. Our motto: Acting instead of just talking.

True pioneers make their mark

Our products proudly bear essential environmental certification marks – such as the "Blue Angel", the FSC®, PEFC, Real Wood, GreenGuard or TÜV ProfiCert seal. This is more than just a sign that we are taking responsibility for the environment and the next generations.

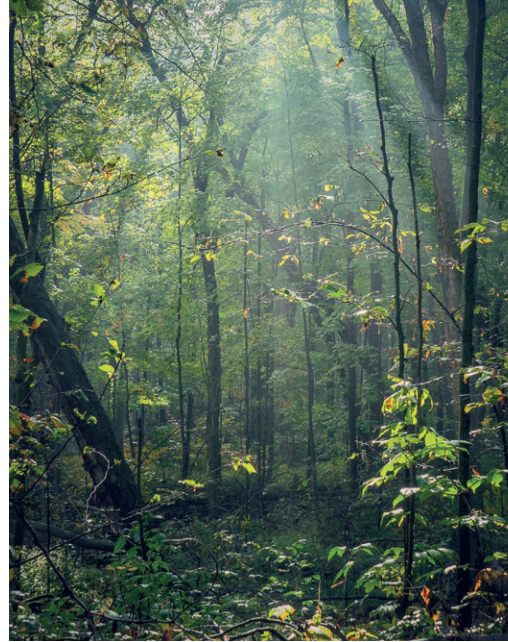

* Product certification on request.

Regional instead of global

We do not use tropical timber or long transport routes. Instead, we rely on regional timber, most of which comes from a maximum of 250 km away.

In addition, we produce locally and thus make an active contribution to climate protection.

Sustainable in an exemplary way

We focus on the responsible use of resources and source our timber exclusively from sustainable forestry. Wood is a durable, easily recyclable, renewable raw material that also binds CO₂. It doesn't get any more sustainable than this!

Recycling instead of throwing away

With timber parts that do not make it into our parquet, we supply not only Weitzer Parkett but also over 50% of the town of Weiz with renewable energy with our in-house biomass cogeneration plant.
