to it.

Why do you immediately think of Weitzer when it comes to wooden parquet? Because we have stood for perfect wooden surfaces for 190 years. We continue where others have already stopped. Our wooden floors combine a perfect look with a wide variety of functions – and are therefore not only simply beautiful, but also intelligent. As wood pioneers, we know that this special material can do much more than just please the eye: It can make your life easier, more pleasant and therefore better.

Pioneers don't hesitate. They move forward.

More than a step ahead. At Weitzer Parkett, we have always been pioneers. Because we have a vision. Believe in progress. And live it. Day after day – with success. For example, we developed the world's first Maintenance-Free Parquet. Its revolutionary technology increases comfort and quality of life. And that is exactly our goal: To improve people's lives with our extensive know-how and decades of experience. A mission possible for us.

Maintenance-Free Parquet

- Suitable for heavy duty
- Pore-deep special sealing
- Easy to maintain - without expensive cleaning agents

Healthy Parquet

- AAAA effect: Allergic friendly, Antibacterial, Antistatic and Breathable
- Local renovation possible
- Special protection thanks to pure natural oils

Sound-Reduction Parquet

- Perfect bonding to the substrate
- 3 times quieter than laminate
- Maximum room and impact sound insulation

MORE THAN JUST BEAUTIFUL

Maintenance-Free Parquet

Who says a wooden floor is only beautiful? Our unique multiple sealing process deep into the wood pores prove the opposite!

Weitzer Parkett is the only manufacturer to offer the patented Maintenance-Free Parquet. Its revolutionary technology effectively protects the floor from dust, scratches, abrasions and dirt accumulation. The gloss is retained, the floor remains permanently beautiful – completely without maintenance or additional effort.

THE BASIS OF ALL WELL-BEING

Healthy Parquet

The Healthy Parquet creates the ideal conditions for a feel-good climate – allergy-friendly, antibacterial, antistatic and breathable at the same time. Its smooth, naturally oiled surface offers no grip for dust or dirt – and no habitat for microorganisms.

The demonstrably elevated floor temperature also ensures more warmth in the room compared to laminate and tiles. This also saves you heating costs without you getting cold feet.

TRANQUILLITY IN PEACE

Sound-Reduction Parquet

Peace and relaxation within your own four walls significantly improve quality of life. A pleasantly muffled noise level is essential for our well-being.

That's where our Sound-Reduction Parquet comes in handy. Thanks to optimal footfall and room sound insulation, it creates a relaxing atmosphere. The fixed connection between parquet and base makes our Sound-Reduction Parquet up to 3 times quieter than laminate flooring (according to an independent German test).

The look our

With Weitzer Parkett plenty of design options are possible. The multi-dimensional all-rounder covers all areas of application, from cozy bathrooms to extensive shopping malls.

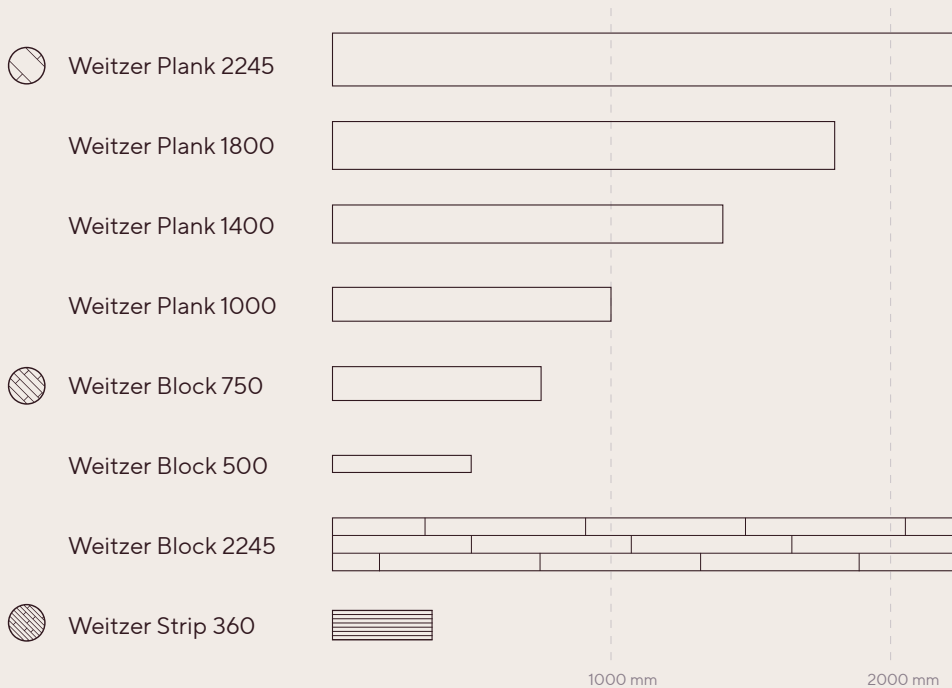

Wood is a versatile material and, at the same time, always unique in shape, colour and quality. We transform the variety of these unique pieces into individual and very personal interiors – where others give up, we reinvent parquet and stairs again and again.

Offering every variant

With us, you are spoiled for choice: With the three different plank, block and strip optics as well as a variety of installation patterns, Weitzer Parkett offers the right floor in the right format for every furnishing style.

The appearances we offer:

Plank appearance

The best from the tree: Only around 17 percent of a tree trunk can be used to create the plank appearance! This makes each piece a valuable unique item.

Remarkably beautiful: ash

The eye-catching one: Ash (*Fraxinus excelsior*)

Because of its high wood quality, ash is one of the most precious woods – and, after beech and oak, one of the most important timbers in Central Europe. Its strikingly textured wood with distinctive annual rings makes it stronger and tougher than that of many other trees and gives it the typical, eye-catching look.

KUNSTHALLE HAMBURG, Hamburg Germany

Masterpiece meets craftsmanship

Trailblazers and life companions: The Kunsthalle Hamburg has been delighting visitors for one and a half centuries, and Weitzer has been delighting its customers for 190 years. Those who set foot in the impressive rooms enter another world – and are continually amazed.

“True greatness is proven by those who give others the necessary space to fully develop through their own restraint – and thus elevate themselves to a work of art.”

The exhibition space must be as alterable and versatile as the exhibitions from classic to modern, the art collections of all periods. Thanks to Weitzer Parkett, the stylish aesthetics also don't stop at the floor – but make it a masterpiece itself. The elegant parquet of **Weitzer Plank 2245 fumed oak** gives the high-ceilinged rooms depth and character without being obtrusive or distracting from the works of art.

The carefree lightness of being that the beholder encounters in many of the numerous works of art on display is also reflected in this unusual parquet by Weitzer:

The Weitzer Plank 2245 in fumed oak offers many stimuli. It stands out for its strength and self-confidence and sets dark accents. An interesting counterpoint to the light-flooded exhibition spaces.

What is created as a result is a contrasting and multi-faceted interplay of contrasts: Light – dark, light – heavy, classic – avant-garde. A natural, authentic analogy to life.

With this unique floor concept for the Kunsthalle Hamburg, Weitzer Parkett is once again doing pioneering work – and proves that every masterpiece only really comes into its own when it has the right stage.

As an almost inexhaustible source from which artists have always drawn inspiration for their creations. The material is both muse and workpiece and it is from this material that timeless things are created; this material is: wood As a modest and therefore all the more appealing work of art of authenticity – unique and made to last.

GRADONNA**** S MOUNTAIN RESORT, Kals am Grossglockner, Austria

Welcome to the peak of well-being

Who doesn't want their guests to feel good? Well-being is the greatest gift you can give to your visitors as a hotelier. Climbing this summit requires a healthy base.

Weitzer Plank 2245 | Oak Mandel

lively | bevelled, brushed | 

If you want to reach the top, you have to stay grounded – and true to your real nature. Then success comes almost by itself – with Weitzer Parkett as the right partner at your side. A company that not only understands its craft, but also the people for whom it makes it.

The fact that Gradonna focuses on authenticity is obvious at first glance. With the very first step into this exclusive four-star resort, the often overused phrase “wellness” is transformed into a sensual experience. For good reason – and not least thanks to Weitzer Healthy Parquet.

Its naturally oiled ProVital finish surface provides an elegant appearance with a velvety-matt look which, thanks to the fine wood structure, is also perceptible to the senses and simply feels authentic and genuine when you walk on it barefoot. No wonder – after all, it consists of 100% natural raw materials such as pure oils and waxes. The perfect basis for top-level wellness. Discerning guests who value a healthy indoor climate are therefore in the right place with Weitzer Healthy Parquet – and the hosts are therefore right at the forefront.

“The art of well-being is to preserve moments of pleasure for a long time.”

Floor with benefit: Not only are the interior and service of the Gradonna luxury resort first-class, but also the many health benefits of Weitzer Healthy Parquet to increase well-being: allergy-friendly, antibacterial, antistatic and breathable. The ideal conditions for an optimal feel-good climate.

But it's not just guests who benefit from Weitzer Healthy Parquet; hosts can also breathe easily: Its local renovation is an enormous advantage, especially for areas with high traffic, as this floor can be partially renovated if required.

In trend and yet against the current: herringbone parquet

You don't have to reinvent classics, but you can. The parquet blocks are additionally offered as French Herringbone parquet in the variants 45 or 60 degrees on request. These alternatives give the floor a particularly elegant look and a unique ambiance throughout the room. The effect of the incidence of light reinforces the already dazzling personality of the herringbone parquet.

Hard shell, noble core: The walnut

The noble one: walnut. (*Juglans nigra*)

As one of the most valuable and sought-after woods, walnut wood has been one of the finest raw materials for the production of parquet floors for centuries. The Colours range from matt to black brown, and thanks to its fine pattern, it gives every room a touch of luxury. With its solid look, it knows how to effectively stage contrasts.

BENE GMBH, Graz, Austria & Kokuyo/Shanghai, China

Prepare the ground for business

Graz meets Shanghai. With Weitzer Parkett, BENE, one of the leading office furniture visionaries, is bringing a touch of Austrian stability and thus comfort to clean, modern office environments.

Whether in cosmopolitan cities or idyllic towns, people always yearn for nature – especially in places where a lot of performance and energy is required of them. Like in modern office environments, for example. For BENE, which specializes in designing cutting-edge working environments and attaches great importance to trends such as “new work,” there is only one option when it comes to choosing the right floor: wood

And not just any wood. As an elegant contrast to modern elements and designs, walnut stands out as an ideal foundation for growth.

Weitzer Strip 360 | Walnut
lively colourful | brushed |

“The energy in an office follows completely different rules than in a residential space. That is why the right floor is so essential.”

Both on a human and economic level. The dark walnut floor offers the trendy, fresh design elements from the BENE collections the perfect stage to shine.

Ground for creativity. The elegant aesthetics of the strip appearance give offices an individual character that suits a modern head office. The conscious use of slimline floorboards gives the rooms an activating touch despite their earthy character. In line with the high energy levels in modern working environments, this guarantees that creativity and concentration are promoted. In addition

to the feel-good effect, the floor thus also offers another added value: A perceived increase in effectiveness.

Limitless design Really good design doesn't have to stop at anything. This is proven by our strip appearance, which even extends up the stairs to the next floor. When it comes to aesthetics, we are true perfectionists and make no compromises. Just like BENE. After all, it's not without reason or a solid base that you get to the very top.

EXQUISIT / CALM

Elegantly calm

Smooth grain, without sapwood: Our timeless grading ensures an elegant, uniform appearance in your four walls.

LIVELY / LIVELY COLOURFUL

Colourful variety

Large knot content, balanced colour image: The lively type of parquet brings a harmonious, colourful look to the room.

RUSTIC / RUSTIC COLOURFUL

Real authentic

Major variation in colour and texture. Oak wood species shows character and allows the tree to live on as a piece of true nature.

The whole diversity of life

Weitzer Parquet combines a wide range of shapes and variants. The secret of nature lies in every nuance: Natural raw materials such as oil, wax and colour pigments derived from mineral salts. The result is impressive: colour range of nuances – almost as colourful as life. Brilliant, right?

Do we treat our wood well? Of course!

Our floors are constant companions through life. That is why we only use the best sunflower oil, which penetrates deep into the wood and keeps it supple.

Linseed oil and natural wax give the surface smoothness and strengthen it against external influences. Also fuming and steaming must be included in the careful "beauty treatment".

From Weiz out into the wide world

Our hearts belong – in addition to wood – to our home town of Weiz (formerly: Weitz) in the midst of green Styria, Austria's most wooded federal state. Where our history as a small woodturning shop began and where we have grown steadily with our forests – and will continue to do so. The place with which we will always be connected. Where our roots lie, of which we are so proud.

 **Weitzer Parkett.**
Wood pioneers for 190 years.

Our pride and joy: wood.

We are proud of our roots as a wood pioneer and we have now been carefully tending to them for 190 years. To this day, we persist on our path of consistency, which allows us to overcome even major challenges.

But because we are not only rooted in our own history, but also in the future of all of us, we are doing everything we can to preserve the precious commodity of wood for future generations as well.

When perfection grows from passion.

Wood is our passion. We have always felt connected to it. It arouses our curiosity and has always fascinated us.

We draw our innovative strength from this source of nature, which inspires us to in turn inspire others. This is how the eternal circle is closed, in which something new is constantly being created: New products. New partnerships. New knowledge.

Why sustainable? Because we still have a lot of plans.

Weitzer thinks ahead. As experienced wood pioneers, we always have one thing in mind: The future. That is why it is a special concern for us to take responsibility for nature and the next generations.

No sooner said than done: We are pioneers not only in wood but also in environmental protection – and contribute to a positive life cycle assessment with our entire value chain.

Our motto: Acting instead of just talking.

True pioneers make their mark

Our products proudly bear essential environmental certification marks – such as the "Blue Angel*", the FSC**, PEFC**, Real Wood, GreenGuard or TÜV ProfiCert seal. This is more than just a sign that we are taking responsibility for the environment and the next generations.

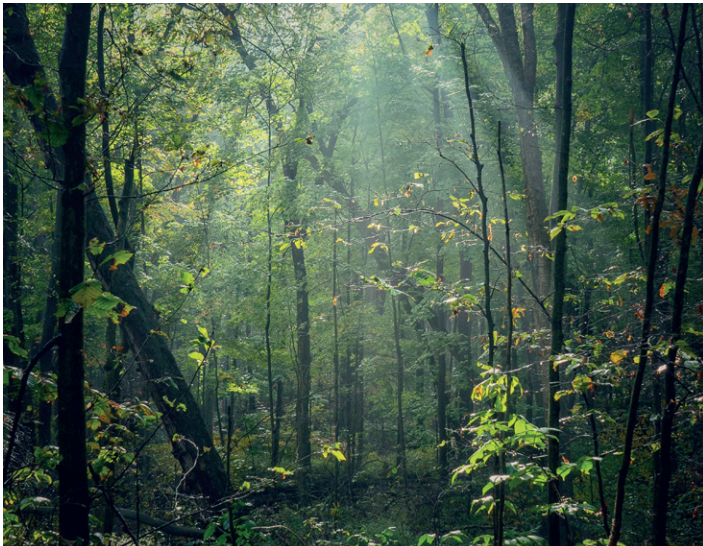

* All certified products under the link provided.

Regional instead of global

We do not use tropical timber or long transport routes. Instead, we rely on regional timber, most of which comes from a maximum of 250 km away.

In addition, we produce locally and thus make an active contribution to climate protection.

Sustainable in an exemplary way

We focus on the responsible use of resources and source our timber exclusively from sustainable forestry.

Wood is a durable, easily recyclable, renewable raw material that also binds CO₂. It doesn't get any more sustainable than this!

Recycling instead of throwing away

With timber parts that do not make it into our parquet, we supply not only Weitzer Parkett but also over 50% of the town of Weiz with renewable energy with our in-house biomass cogeneration plant.

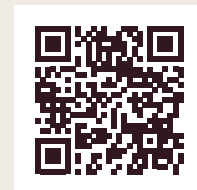

Parquet. Perfect. Experience it in person
